Job Title: Drug Information/Academia Resident

Job Description:
The Drug Information/Education Residency will provide post-graduate pharmacist training focused on drug information and teaching experience to prepare the resident for a career in academic pharmacy and drug information. The resident will provide instruction to pharmacy students at The University of Montana Drug Information Service, as well as a variety of classroom settings. The resident will also provide drug information and pharmaceutical care consultation services to healthcare professionals through the Drug Information Service.

Qualifications/Required Skills:
- Hold a Doctor of Pharmacy or Masters of Science degree from an ACPE-accredited institution
- Eligible for pharmacy licensure in the state of Montana
- Completion of a four-week Advanced Pharmacy Practice Experience (APPE) in drug information preferred
- Previous pharmacy residency experience is desirable but not required
- Eligibility to be preceptor in the state of Montana is desirable but not required
- Possess excellent written and oral communication skills
- Possess leadership and interpersonal skills to facilitate team dynamics and individual professional growth
- Be competent in computer usage, including Microsoft Office programs and medical research via the Internet and online databases such as Micromedex and the Iowa Drug Information Service

Specific Responsibilities include the following:
- Provision of drug information and pharmaceutical care consultation services to health care professionals and patients
- Preparation and online publication of the Drug Information Service newsletter
- Participation in the administrative aspects of maintaining a drug information service in an academic setting
- Maintenance of the Drug Information Service web site
- Provision of contracted drug information services
- Participation in publication endeavors
- Involvement with didactic teaching of undergraduate and graduate pharmacy students
- Assist in the Drug Information Advanced Pharmacy Practice Experience (AAPE) in the Drug Information Service
- Provision of continuing education programs and training to health care providers on a variety of topics related to drug therapy and information technology
- Provision of assistance to all persons utilizing the Drug Information Service/Learning Support Services
- Participation on Skaggs School of Pharmacy and Pharmacy Practice Department committees
- Supervision of Drug Information Services/student computer laboratory assistants

Desired Skills:
- Detail oriented
- Good interpersonal skills
- Excellent organizational skills
