A. BRIEF OVERVIEW OF AGENCY SETTING

Intermountain is a multi-site, multi-service behavioral health care agency for children and families. Inpatient services include Intensive Residential (18 months); Child and Family Assessment Center for stabilization and assessment (length of stay 4-6 months); Day Treatment (campus setting with enriched classroom); School Based Services (11 teams in 9 schools – elementary, middle and high school); Family Based Services; Outpatient Mental Health.

B. DESCRIPTION OF CLIENT GROUP

Children aged 4-18 (depending on setting) and families.

C. LEARNING OPPORTUNITIES

Advanced students can learn to do therapy with children and families, primarily in residential, day treatment and school based settings. Some opportunities to run therapeutic groups in family based services.

D. EXPECTATIONS OF STUDENTS

Students must have had some experiential exposure to therapy in practicum or experiential coursework. We prefer students who can be in the internship for the entire academic year. Applications can be made in June/July for August – May internships. Experience with children and families is a benefit. Students must be able to write well.
