A. BRIEF OVERVIEW OF AGENCY SETTING
Florence Crittenton is the only licensed therapeutic maternity group home in Montana. We work with pregnant young women and their babies, providing them the support, therapeutic and educational services they need to be successful and for their children to get the best start in life. We focus on bonding/attachment issues and work closely with the moms to develop positive healthy attachments with their babies. We provide individual and group therapies, independent living skills training, parenting and adoption education. We also have on-site Child Enrichment Center that is licensed to care for up to 12 infants/toddlers and we are working to add an infant mental health and assessment program to the Center.

B. DESCRIPTION OF CLIENT GROUP
We have the capacity to serve up to 8 pregnant and/or parenting young women ages 12-20 and their babies in our residential program. We can serve young moms with emotional disturbance issues and other challenging trauma histories/behaviors. We also have a transitional housing program on-site (2- two-bedroom apartments) for homeless pregnant/parenting young women and their children.

C. LEARNING OPPORTUNITIES
We have three licensed therapists on site currently who can supervise students (LCSW, LCPC, and LAC). Students would have the opportunity to work directly with clients 1:1 and as group co-facilitators. In addition to providing basic therapy services, e.g. Individual, family, and couples groups, we also do a lot of work with parenting skills and independent living skills development that students can help with. We can also use them to help with assessments for the teen moms and their children.

D. EXPECTATIONS OF STUDENTS
A minimum of a semester commitment. Willingness to work some flexible hours. Good professional boundaries and strong ethics. Willingness to work closely with a team and ability to work independently.
